ABS ADVANCED BLENDING SOLUTIONS LLC

Tomorrow's challenges solved today.

AIR FILTERS

DUST COLLECTION UNIT

- **PRECISE MEASURING OF DELTA P**
- **ALARM TO CONTROL CLEANING CYCLES**
- **CE COMPLIANT**
- **OPTIONAL HAZARD-CLASS RATED**
- **EASY ACCESS FRONT DOOR**
- **QUICK-RELEASE CLAMPS FOR EASY FILTER CHANGES**
- **REMOVABLE BIN COLLECTS CONTAMINANTS**

AIR FILTERS are designed to optimize airflow through the unit and minimize restrictions. These units have a precise measure of delta P, which is used to alarm and control cleaning cycles (only dirty filters are cleaned). Units feature a front door for easy filter access, and filters are connected with quick-release clamps for easy changing. Removable bin collects contaminants.

ABS now offers Air Filtration Units that are NFPA compliant for Hazard-Class combustible materials rated up to ST2.
