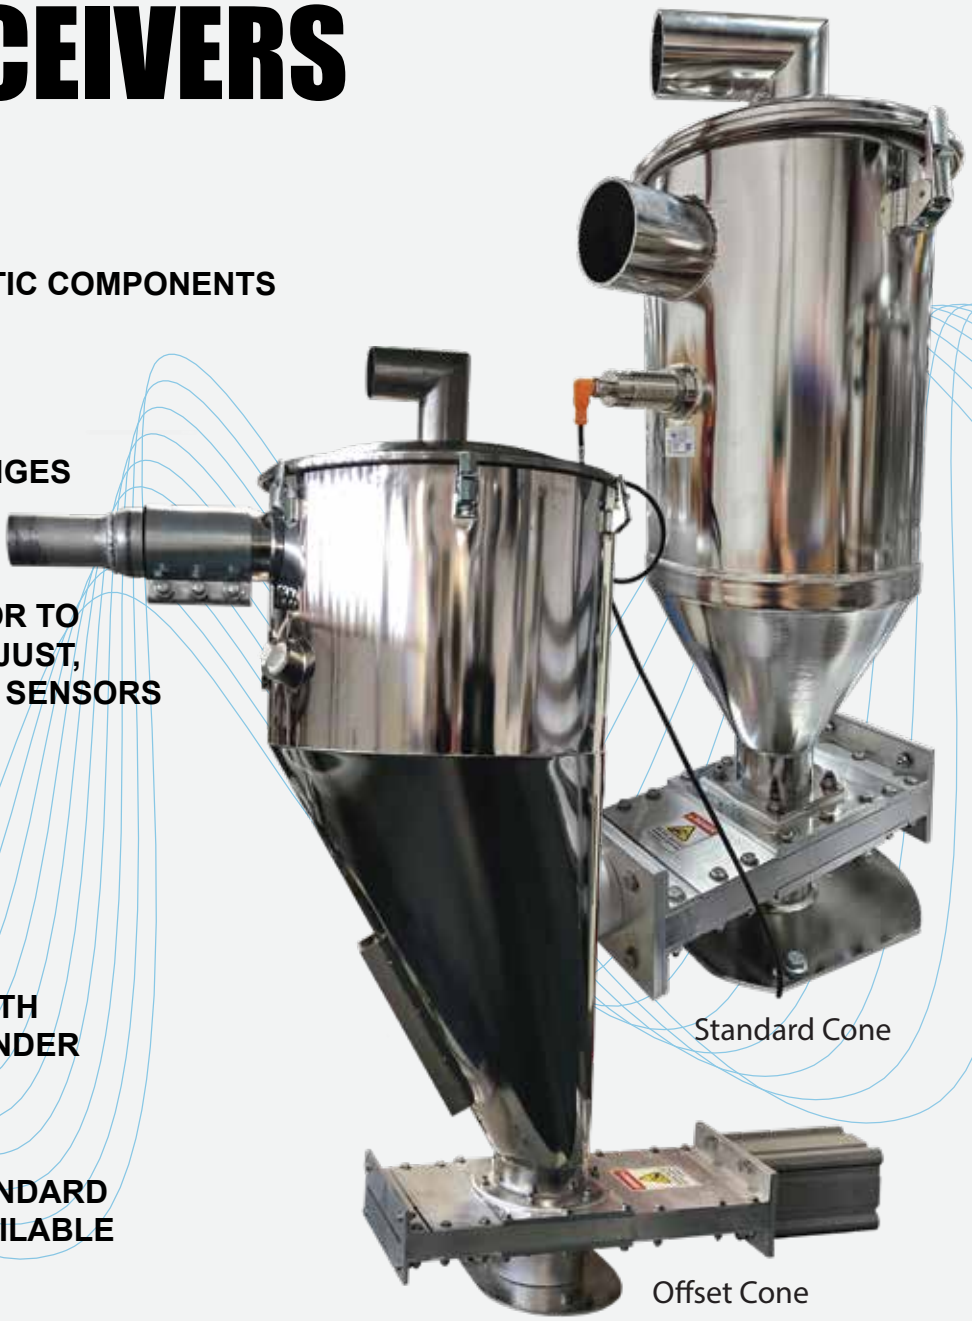
ADVANCED BLENDING SOLUTIONS LLC

Tomorrow's challenges solved today.

VACUUM RECEIVERS

- **HIGH-QUALITY PNEUMATIC COMPONENTS**
- **INDUSTRIAL-STYLE, LONG-LIFE LOCKING HINGES AND LATCHES**
- **INDUCTIVE PROX SENSOR TO ELIMINATE HARD-TO-ADJUST, UNRELIABLE MAGNETIC SENSORS**
- **PELLET SCREEN**
- **CAN BE INTEGRATED WITH SIMPLICITY SERIES BLENDER**
- **FROM 1/8 FT³ - 4 FT³ STANDARD AND CUSTOM SIZES AVAILABLE**



Standard Cone

Offset Cone

VACUUM RECEIVERS were developed for optimal productivity and up-time. Flapper-style vacuum receivers come with an industrial hinge for consistent swing, and an inductive proximity sensor (prox) for simple set-up and operation. Vacuum Receivers can also be purchased with Knifegates on the outlet allowing the vessel to serve as a surge hopper and eliminating potential leaks due to pellet wedging—a common occurrence in flapper-style Vacuum Receivers.
